CONTENTS

1 Svobodová J., Svoboda P.: Cytoplasmic Membrane Fluidity Measurements on Intact Living Cells of *Bacillus subtilis* by Fluorescence Anisotropy of 1,6-Diphenyl-1,3,5-hexatriene

10 Koníčková-Radochová M., Koníček J., Rytíř V.: Pigmentation Changes in *Brevibacteria* Induced by Mutagenic Treatment

15 Tiwari R.P., Singh G., Jain N.K., Singh J., Vadehra D.V.: Effect of Nutritional Factors on Aflatoxin B_1 Inhibition of Growth in *Escherichia coli* and *Salmonella typhi*

21 Thakur M.S., Prapulla S.G., Jaleel S.A., Prasad M.S., Ghildyal N.P., Lonsane B.K.: Cultural Stability of *Streptomyces fradiae* in the Production of Xylose Isomerase Studies in Shake Flasks

29 Bokhary H.A., Abu-Zinada A.H., Kunji Z.A.: Biochemical and Ultrastructural Studies of *Penicillium chrysogenum*, *Talaromyces leycettanus* and *T. thermophilus*

34 Brozmanová J., Holinová Z.: A Rapid Preparation of Plasmid DNA from *Saccharomyces cerevisiae*

38 Louis-Eugène S., Ratomahenina R., Galzy P.: Enzymic Reduction of Biacetyl by a Strain of *Saccharomyces uvarum*

45 Zemek J., Kučár Š., Anderle D., Kuniak Ľ.: Partial Deacetylation of 1,6-Anhydro-, 2,3,4-tri-O-acetyl-β-D-glucopyranose by *Aureobasidium pullulans* Cells

50 Krištůfek V., Kalousková N., Čermáková M., Blumauerová M.: Degradation of Bromoxynil by *Streptomyces felleus* in Soil

55 Chandrashekar K.R., Kaveriappa K.M.: Production of Extracellular Enzymes by Aquatic Hyphomycetes

59 Šmarda J., Ševčíková I.: Mutation Analysis of the Receptor for Colicins E1—E7. A Pilot Study

81 Weiser J., Šebo P.: Molecular Properties of Elongation Factor Tu from *Streptomyces aureofaciens* and *Escherichia coli*

88 Liebs P., Riedel K., Graba J.P., Schrapel D., Tischler U.: Formation of Some Extracellular Enzymes During the Exponential Growth of *Bacillus subtilis*

96 Strasser de Saad A.M., Manca de Nadra M.C., Pesce de Ruiz Holgado A., Oliver G.: Extracellular Proteinase from *Lactobacillus murinus*

101 Malaník V., Malaníková M., Pšenička I., Sojková I., Marek M.: Effect of Detergents on Aspartate Ammonia-Lyase Activity in *Escherichia alcalescens*

108 Janda S., Beneš I., Lichá I., Tauchová R.: Effect of pH on Inhibition of Cyanide-Resistant Respiration by Hydroxamic Acids in *Rhodotorula glutinis*

115 Semerdžieva M., Buchalo A.S., Hübsch P., Zakordonec O.A., Wasser S.P., Musílek V.: Comparative Study of Cultures of Four Species of the Genus *Oudemansiella*

121 Kunert J.: Utilization of Cystine by Dermatophytes on a Gelatin Medium

129 Vraná D.: Changes of Respiration and of Specific Growth Rate During Cell Cycle of Yeast Cells of Different Genealogical Age

137 Vraný B., Hnátková Z.: Cultivation on Cellophane Agar as a Method for the Assay of Bacterial Enzymes

140 Pistol-Tănase C., Zamfir G., Moraru I., Ghetie V.: Use of Glutaraldehyde-Treated Erythrocytes as Indicator Cells for the Identification of the C1q Component on the Macrophage Membrane by a Rosette Assay

161 Svobodová J., Svoboda P.: Membrane Fluidity in *Bacillus subtilis*. Physical Change and Biological Adaptation

170 Svobodová J., Julák J., Pilař J., Svoboda P.: Membrane Fluidity in *Bacillus subtilis*. Validity of Homeoviscous Adaptation

178 Pšenička I., Malaník V., Sojková I., Malaníková M., Marek M.: Optimization of Growth of *Escherichia alcalescens* with Respect to Its Aspartate Ammonia-lyase Activity

183 Kumar R.K.P., Lonsane B.K.: Kinetics of Mycelial Protoplast Formation in *Gibberella fujikuroi* and *Trichoderma reesei*

188 Kunert K.: Utilization of Cystine by Dermatophytes on Glucose-Peptone Media

198 Ghannoum M.A., Thomson M., Beadle C.D., Bowman W.R.: Antibacterial Activity of Some α-Substituted 2-Methyl-5-nitrofurans

208 Kopečný J., Williams A.G.: Synergism of Rumen Microbial Hydrolases during Degradation of Plant Polymers

213 Bhattacharya G., Chaudhuri J., Mandal A.: Elimination of Mercury, Cadmium and Antibiotic Resistance from *Acinetobacter lwoffi* and *Micrococcus* sp. at High Temperature
219 Klekner V., Šímová E., Řičica J.: Modelling of Agrobacteran Production in a Batch Culture of *Agrobacterium radiobacter*
224 Kubín V., Rýc M.: Adherence of Group B Streptococci to Human Buccal Epithelial Cells, Its Dependence on the Biological State of the Culture
241 Navrátil O., Čejka K., Strnadová M., Hoffemeier C., Braná H., Hubáček J.: Plasmid pIM138 — the pBR322 Derivative with Increased Stability in *E. coli* Cells
247 Pátek M., Nešvera J., Hochmannová J., Štokrová J.: Transfection of *Brevibacterium flavum* with Bacteriophage BFB10 DNA
255 Mitra A., Ray M.K., Chatterjee G.C.: Role of iron in the Enhancement of *Agrobacterium tumefaciens* Infection in Mice
261 Novák K., †Staněk M., Řičica J., Šímová E.: Elicitor Activity of *Agrobacterium radiobacter* in Plants
267 Pazlarová J., Tsaplina I.: Production of an Extracellular Proteinase and α-Amylase by *Bacillus subtilis* in Chemostat
273 Matveev Y. Yu., Sen A. N., Panasenko V.I.: Plasmid Content of *Azospirillum* Strains from Cereals
277 Zhulin I.B., Tretyakova S.E., Ignatov V.V.: Chemotaxis of *Azospirillum brasilense* towards Compounds Typical of Plant Root Exudates
281 García J.C., Kotyk A.: Effect of Ethanol on the Specific Transport System for L-Lysine in *Saccharomyces cerevisiae*
285 García J.C., Kotyk A.: Uptake of L-Lysine by a Double Mutant of *Saccharomyces cerevisiae*
292 Běhalová B., Vořišek J.: Increased Sterol Formation in *Saccharomyces cerevisiae*. Analysis of Cell Components and Ultrastructure of Vacuoles
298 Homolka L.: Preparation, Reversion, Mutagenesis and Intra-Species Fusion of Protoplasts of *Oudemansiella mucida*
309 Řezanka T., Vyhnálek O., Podojil M.: Separation and Identification of Lipids and Fatty Acids of the Marine Alga *Fucus vesiculosus* by TLC and GC–MS
314 Mačor M., Ebringer L.: Effect of Elevated Temperature on Genotoxicity of Chemotherapeuticals toward *Euglena gracilis*
323 Bartková G., Majtán V.: Properties and Participation of "Free" Endotoxin in the Toxic Activity in *Morganella morganii*
329 Trebichavský I., Patriková I., Mandel L., Kovářů F., Zahradníčková M.: Ontogeny of T Lymphocytes in the Pig
337 Koníček J., Koníčková-Radochová M., Strnadová M., Chaloupka J., Wolf A., Rytíř V., Hubáček J.: Optimal Conditions for Induction of Certain Mutation Types in *Brevibacterium flavum* by N-Methyl-N′-nitro-N-nitrosoguanidine
344 Rollan G., Manca de Nadra M.C., Pesce de Ruiz Holgado A., Oliver G.: Aspartate Aminotransferase of *Lactobacillus murinus*
349 Neužil J., Krištůfek V., Blumauerová M.: Enzymic Degradation of Bromoxynil by Cell-Free Extracts of *Streptomyces felleus*
355 Biswas S.R., Mishra A.K., Nanda G.: Induction of Xylanase in *Aspergillus ochraceus*
360 Letunova E.V., Ermekbaeva L.A., Kozlovskaya L.N., Bezborodova S.I.: Determination of Localization of Ribonuclease in *Aspergillus clavatus*
363 Moharram A.M., Abdel-Gawad K.M., Mohamed El-Maraghy S.S.: Ecological and Physiological Studies on Fungi Associated With Human Hair
372 Ruml T., Šilhánková L., Rauch P.: The Irreversibility of Thiamin Transport in *Saccharomyces cerevisiae*
377 Novotný Č., Běhalová B., Stružinský R., Novák M., Zajíček J.: Sterol Composition of a $\Delta^{5,7}$-Sterol-Rich Strain of *Saccharomyces cerevisiae* during Batch Growth
386 Zidan M.A.: Effects of Accumulation of 3-O-Methylglucose on Levels of Intracellular Glycerol in *Dunaliella tertiolecta*
393 Asnani P.J., Bhatnagar N., Bhandari S.: Production and Purification of *Escherichia coli* Hemolysin
401 Kotulová D., Žalkovičová M., Štefanovič J.: Effect of Cyclophosphamide on the Candidacidal Activity of Rabbit Peritoneal Macrophages
433 Čupková V., Vinter V., Devínský F., Lacko I., Mlynarčík D.: Inhibitory Effect of 1-Methyldodecyldimethylamine Oxide and N,N′-Bis(dodecyldimethyl)-1,2-ethanediammonium Dibromide on the Spores of *Bacillus cereus*
440 Matějů J., Karnetová J., Nohýnek M., Vaněk Z.: Propionate and the Production of Monensins in *Streptomyces cinnamonensis*
447 Ghareib M., Youssef K.A., Khalil A.A.: Ethanol Tolerance of *Saccharomyces cerevisiae* and Its Relationship to Lipid Content and Composition

453 Tarafdar J. C., Rao A. V., Bala Kiran: Production of Phosphatases by Fungi Isolated from Desert Soils
458 Vraný B., Hnátková Z., Lettl A.: Occurrence of Collagen-Degrading Microorganisms in Associations of Mesophilic Heterotrophic Bacteria from Various Soils
462 Flegr J., Čerkasov J., Štokrová J.: Multiple Populations of Double-Stranded RNA in Two Virus-Harbouring Strains of *Trichomonas vaginalis*
466 Mačor M.: Streptomycin and N-Methyl-N′-nitro-N-nitrosoguanidine Inhibit Incorporation of ^{14}C-Precursors of Macromolecule Synthesis in *Euglena gracilis*
474 Mašková H.P., Kunc F.: Microbial Decomposition of Carboxymethyl Cellulose Continuously Added to the Soil
482 Mašková H. P., Vasilyeva L. V., Kofroňová D., Kunc F.: Microflora Participating in the Decomposition of Carboxymethyl Cellulose Continuously Added to the Soil
491 Golovleva L.A., Pertsova R.N., Kunc F., Vokounová M.: Decomposition of the Herbicide Bromoxynil in Soil and in Bacterial Cultures
499 Kaur J., Kaul M., Chhibber S.: Enterotoxigenicity, Klebocinogeny and Antibiotic Resistance Pattern of Food Isolates of *Klebsiella pneumoniae*
507 Ravdonikas L.E., Grabovskaya K.B., Totolian A.A.: Isolation and Study of Fosfomycin-Resistant Mutants of Group A and B Streptococci
513 Ravdonikas L.E., Rýc M., Grabovskaya K.B., Totolian A.A.: Adherence to Epithelial Cells and Ultrastructure of Fosfomycin-Resistant Mutants of Group A Streptococci
529 Al-Rubiee R., Al-Mudaffar S., Hassan F., Al-Ani F.: Purification and Characterization of Pyocins R from *Pseudomonas aeruginosa*

Brief Reports

68 Klekner V., Šímová E., Řičica J.: Oxygen Transfer into a Medium with Extracellular Polysaccharide
